

Veda5

Himalayan Naturals

Dwell in the Goodness of Ayurveda

Himalayas are the native place to almost all herbs, trees, minerals, etc. that were described by the fore fathers of ayurveda traditions. Veda5, nestled in The Himalayas, is the perfect ground to prepare numerous formulations from various selected materials and ayurvedic literatures.

The herbs, fruits, seeds, roots, etc. are collected from their natural habitats in the Himalayas. These are safely brought and tested in our lab and then skillfully processed by traditional ayurvedic methods to ensure their 100% efficacy. The result is that our products are natural, non-toxic, unadulterated without synthetic & inorganic chemicals and above all generally with no side effects.

Veda5 – Himalayan Naturals aims to promote the ancient science of Ayurveda through modern means. We manufacture our range of luxury Ayurvedic products after deep research and intense quality checks only to deliver the best and authentic to our customers. Our existing ancient Ayurvedic formulations helps us achieve so. Our range of products include 100% natural cosmetics, massage oils, hair oils, immunity boosters and nutritional supplements. As we value the importance of doshas, we offer a range of products only for particular doshas such as our V-P-K Doshas balancing teas and massage oils.
